

ASSEMBLY INSTRUCTIONS

CAUTION: Make sure the electrical power is turned off before and during installation or maintenance. The light fixture must be installed by a qualified professional in accordance with all applicable local standards.

This luminaire is suitable for indoor use and damp locations. Not intended for wet locations or direct exposure to rain.

Model
Nash

Lamp
1x E-27

Description: Nash floor lamp
Material: ceramic, steel and fabric

Diagram labels are the manufacturer's original reference codes:
E = ceramic spheres, H = rod, A = finish, CE = power wires,
SS = socket support, C = connectors, P = screw, PR = socket nut.

Instructions:

1) Remove the product's protective packaging, taking care not to damage any parts with sharp surfaces or objects. Place the parts of the light fixture on a horizontal surface to connect them. If necessary, use the protective packaging to cushion the surface and protect the parts from scratches or damage.

2) Turn off the power before starting installation.

3) Place the rod (H) in a vertical position.

4) Define the color order in which the ceramic spheres (E) will be arranged. Fit the spheres onto the rod, keeping in mind that each one should rest on top of the other.

5) After placing all spheres, insert the finish (A).

6) Connect the power wires (CE) from the rod (H) to the power wires (CE) from the socket support (SS) using the connectors (C).

7) Once connected, insert the power wires (CE) and connectors (C) inside the rod (H).

8) Fit the socket support (SS) onto the rod (H). Use the screw (P) to secure it to the rod (H).

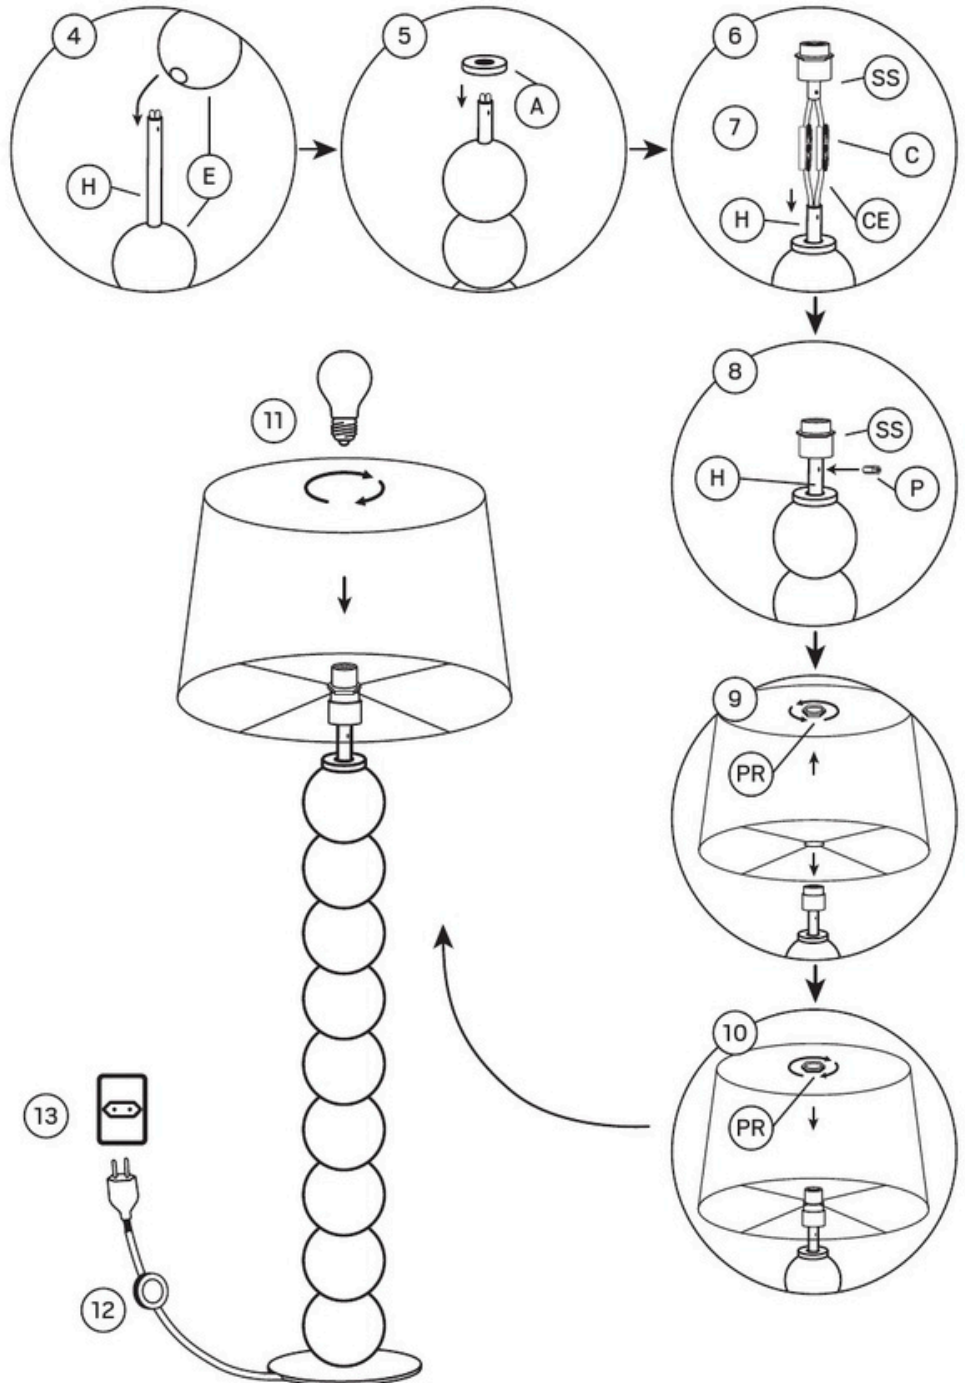

9) To install the shade, unscrew the nut (PR) from the socket, then insert the shade onto the socket.

10) Screw the nut (PR) onto the socket to lock the shade onto the socket.

11) Install the bulb (not supplied) into the socket.

12) Use the switch on the power cord to turn the light fixture on/off.

13) Plug it into an outlet and your light fixture is ready to use.

Save these instructions for future reference.

WARNING: Failure to comply with the instructions contained in this manual may cause accidents and void the product warranty. Carefully read these instructions in full before proceeding. Make sure that the fixture's rated voltage requirements are compatible with the electrical supply. Improper installations may cause property damage, fire, bodily injury, or death. This installation manual is intended only for qualified electricians who are knowledgeable about electrical installations, and should be used as a guide for lighting fixture installations. All manufacturer's instructions supplied with the product must be followed. We emphasize the need for electrical installation knowledge; hire an electrician.
